## 1. TABLE: `suppliers` (200 records)

---

| Column         | Data Type    | Description                | Example                                                          |
|----------------|--------------|----------------------------|------------------------------------------------------------------|
| supplier_id    | VARCHAR(10)  | Unique supplier identifier | SUP0001                                                          |
| supplier_name  | VARCHAR(100) | Company name of supplier   | Sharma Ele Pvt Ltd                                               |
| contact_person | VARCHAR(80)  | Primary contact name       | Rahul Sharma                                                     |
| email          | VARCHAR(120) | Business email address     | <a href="mailto:contact@sharmaele.com">contact@sharmaele.com</a> |
| phone          | VARCHAR(15)  | 10-digit mobile number     | 9812345678                                                       |
| city           | VARCHAR(50)  | City of operation          | Mumbai                                                           |
| state          | VARCHAR(50)  | Indian state               | Maharashtra                                                      |

|                    |              |                                |                 |
|--------------------|--------------|--------------------------------|-----------------|
| pincode            | VARCHAR(10)  | 6-digit postal code            | 400001          |
| category           | VARCHAR(50)  | Product category supplied      | Electronics     |
| gstin              | VARCHAR(20)  | GST Identification Number      | 27AAAAA1234A1Z5 |
| payment_terms_days | INT          | Credit period in days          | 30              |
| rating             | DECIMAL(3,1) | Internal supplier rating (1-5) | 4.2             |
| created_date       | DATE         | Onboarding date (DD-MM-YYYY)   | 15-03-2022      |
| is_active          | TINYINT(1)   | 1=Active, 0=Inactive           | 1               |

---

## 2. TABLE: products (1,000 records)

---

| Column       | Data Type    | Description                    | Example                 |
|--------------|--------------|--------------------------------|-------------------------|
| product_id   | VARCHAR(10)  | Unique product identifier      | PRD0001                 |
| product_name | VARCHAR(150) | Full product name with variant | Reliance Smartphone Pro |
| category     | VARCHAR(50)  | Parent category                | Electronics             |
| subcategory  | VARCHAR(80)  | Product type                   | Smartphone              |

|               |               |                                        |               |
|---------------|---------------|----------------------------------------|---------------|
| brand         | VARCHAR(80)   | Brand name                             | Reliance      |
| sku           | VARCHAR(30)   | Stock Keeping Unit code                | SKU-ELE-00001 |
| mrp           | DECIMAL(10,2) | Maximum Retail Price (₹)               | 29999.00      |
| selling_price | DECIMAL(10,2) | Our selling price (₹)                  | 24999.00      |
| cost_price    | DECIMAL(10,2) | Purchase cost from supplier (₹)        | 16499.00      |
| gst_rate      | INT           | GST percentage applicable              | 18            |
| hsn_code      | VARCHAR(10)   | Harmonised System of Nomenclature code | 8517          |
| weight_grams  | INT           | Product weight in grams                | 250           |
| supplier_id   | VARCHAR(10)   | FK → suppliers                         | SUP0012       |
| rating        | DECIMAL(3,1)  | Customer rating (1–5)                  | 4.3           |
| review_count  | INT           | Number of customer reviews             | 1250          |
| is_active     | TINYINT(1)    | 1=Listed, 0=Delisted                   | 1             |
| launch_date   | DATE          | Date product was listed                | 01-07-2023    |

**GST Rates by Category:**

| Category       | GST Rate |
|----------------|----------|
| Books, Grocery | 0%       |

|                                               |     |
|-----------------------------------------------|-----|
| Fashion                                       | 5%  |
| Home & Kitchen, Sports & Fitness, Toys & Baby | 12% |
| Electronics, Beauty & Health, Office Supplies | 18% |
| Automotive                                    | 28% |

---

### 3. TABLE: `inventory` (1,000 records)

---

| Column                           | Data Type   | Description                        | Example    |
|----------------------------------|-------------|------------------------------------|------------|
| <code>inventory_id</code>        | VARCHAR(10) | Unique inventory record ID         | INV0001    |
| <code>product_id</code>          | VARCHAR(10) | FK → products                      | PRD0001    |
| <code>warehouse_location</code>  | VARCHAR(50) | Fulfillment center name            | Mumbai-WH1 |
| <code>quantity_available</code>  | INT         | Current sellable stock             | 150        |
| <code>quantity_reserved</code>   | INT         | Stock reserved for open orders     | 12         |
| <code>reorder_level</code>       | INT         | Minimum qty before reorder trigger | 25         |
| <code>reorder_quantity</code>    | INT         | Units to order when restocking     | 100        |
| <code>last_restocked_date</code> | DATE        | Last inventory replenishment date  | 10-05-2025 |

|                       |               |                                     |            |
|-----------------------|---------------|-------------------------------------|------------|
| unit_cost             | DECIMAL(10,2) | Cost per unit (₹)                   | 16499.00   |
| total_inventory_value | DECIMAL(12,2) | quantity × unit_cost (₹)            | 2474850.00 |
| status                | VARCHAR(20)   | In Stock / Low Stock / Out of Stock | In Stock   |

## 4. TABLE: customers (10,000 records)

| Column      | Data Type    | Description            | Example                                                                  |
|-------------|--------------|------------------------|--------------------------------------------------------------------------|
| customer_id | VARCHAR(12)  | Unique customer ID     | CUST00001                                                                |
| first_name  | VARCHAR(50)  | Indian first name      | Rahul                                                                    |
| last_name   | VARCHAR(50)  | Indian surname         | Sharma                                                                   |
| email       | VARCHAR(120) | Email address          | <a href="mailto:rahul.sharma123@gmail.com">rahul.sharma123@gmail.com</a> |
| phone       | VARCHAR(15)  | 10-digit mobile number | 9876543210                                                               |
| city        | VARCHAR(50)  | Delivery city          | Bengaluru                                                                |
| state       | VARCHAR(50)  | Indian state           | Karnataka                                                                |
| pincode     | VARCHAR(10)  | 6-digit pin code       | 560001                                                                   |
| gender      | VARCHAR(10)  | Male / Female / Other  | Male                                                                     |

|                   |               |                                     |            |
|-------------------|---------------|-------------------------------------|------------|
| age               | INT           | Age in years                        | 28         |
| segment           | VARCHAR(20)   | Customer tier                       | Premium    |
| registration_date | DATE          | Account creation date               | 15-06-2023 |
| last_login_date   | DATE          | Most recent app/site login          | 20-06-2025 |
| total_orders      | INT           | Lifetime order count                | 12         |
| total_spent       | DECIMAL(12,2) | Lifetime GMV from this customer (₹) | 85000.00   |
| is_verified       | TINYINT(1)    | Phone/ email verified               | 1          |
| is_active         | TINYINT(1)    | Account active status               | 1          |

**Customer Segments:**

| Segment  | Description                 | Share |
|----------|-----------------------------|-------|
| Regular  | 5–20 orders, moderate spend | 40%   |
| Budget   | Low AOV, price-sensitive    | 25%   |
| Premium  | High AOV, 20+ orders        | 15%   |
| New      | <3 orders                   | 15%   |
| Inactive | No order in 6+ months       | 5%    |

---

## 5. TABLE: orders (50,000 records)

| Column          | Data Type     | Description                                                     | Example     |
|-----------------|---------------|-----------------------------------------------------------------|-------------|
| order_id        | VARCHAR(12)   | Unique order ID                                                 | ORD000001   |
| customer_id     | VARCHAR(12)   | FK → customers                                                  | CUST00001   |
| order_date      | DATE          | Date order placed (DD-MM-YYYY)                                  | 15-10-2024  |
| order_time      | TIME          | Time of order (IST)                                             | 20:35:00    |

## 6. TABLE: `order_items` (100,000 records)

| Column     | Data Type   | Description             | Example    |
|------------|-------------|-------------------------|------------|
| item_id    | VARCHAR(12) | Unique line-<br>item ID | ITM0000001 |
| order_id   | VARCHAR(12) | FK → orders             | ORD000001  |
| product_id | VARCHAR(10) | FK → products           | PRD0042    |

|                 |               |                                   |                 |
|-----------------|---------------|-----------------------------------|-----------------|
| product_name    | VARCHAR(150)  | Product name at time of order     | Tata Laptop Pro |
| category        | VARCHAR(50)   | Product category                  | Electronics     |
| quantity        | INT           | Units purchased                   | 1               |
| unit_price      | DECIMAL(10,2) | Price per unit at purchase (₹)    | 45000.00        |
| gst_rate        | INT           | GST % applied                     | 18              |
| gst_amount      | DECIMAL(10,2) | GST charged (₹)                   | 8100.00         |
| discount_amount | DECIMAL(10,2) | Discount applied on this item (₹) | 2250.00         |
| total_price     | DECIMAL(12,2) | Net price paid (₹)                | 50850.00        |

## 7. TABLE: payments (50,000 records)

| Column       | Data Type   | Description             | Example    |
|--------------|-------------|-------------------------|------------|
| payment_id   | VARCHAR(12) | Unique payment ID       | PAY000001  |
| order_id     | VARCHAR(12) | FK → orders             | ORD000001  |
| customer_id  | VARCHAR(12) | FK → customers          | CUST00001  |
| payment_date | DATE        | Date of payment attempt | 15-10-2024 |

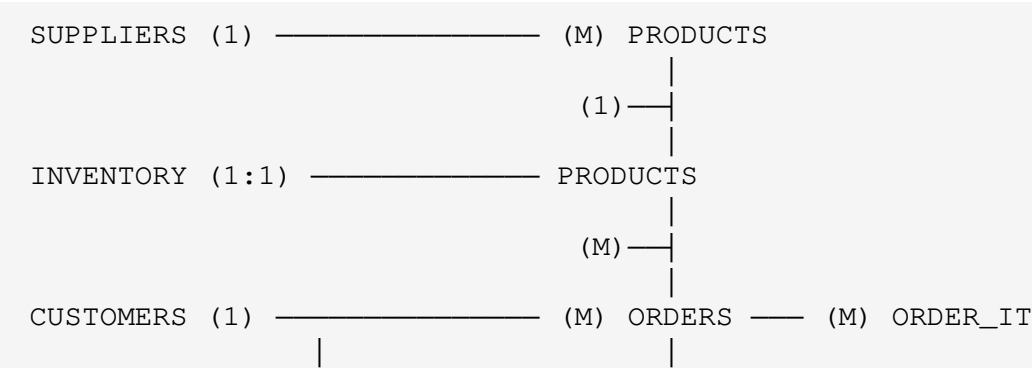

|                |               |                               |               |
|----------------|---------------|-------------------------------|---------------|
| payment_time   | TIME          | Time of payment (IST)         | 20:35:10      |
| payment_method | VARCHAR(30)   | UPI / Credit Card / etc.      | UPI           |
| amount         | DECIMAL(12,2) | Amount attempted/ paid (₹)    | 16500.00      |
| status         | VARCHAR(20)   | Success / Failed              | Success       |
| transaction_id | VARCHAR(30)   | Gateway transaction reference | TXN9876543210 |
| bank_name      | VARCHAR(60)   | Issuing/ receiving bank       | HDFC Bank     |
| gateway        | VARCHAR(40)   | Payment gateway used          | Razorpay      |
| refund_amount  | DECIMAL(10,2) | Amount refunded (₹)           | 0.00          |
| refund_date    | DATE          | Date refund processed         | NULL          |

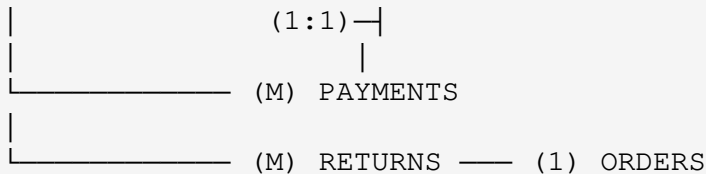

## 8. TABLE: `returns` (10,000 records)

| Column    | Data Type   | Description              | Example   |
|-----------|-------------|--------------------------|-----------|
| return_id | VARCHAR(10) | Unique return request ID | RET00001  |
| order_id  | VARCHAR(12) | FK → orders              | ORD000123 |

|                  |               |                               |                                  |
|------------------|---------------|-------------------------------|----------------------------------|
